

IMPORTANT: ONE SHOULD NOT DISCONTINUE OR AVOID TAKING MEDICATIONS THAT HAVE BEEN PRESCRIBED TO THEM WITHOUT CONSULTING THEIR DOCTOR AND RABBI.

MEDICATION which tastes bitter (when chewed) is permitted. However, one should not take a pill that contains chometz if there is a chometz-free alternative.

LIQUID and chewable medications, as well as coatings of medications that contain chometz should not be used.

VITAMINS and food supplements that contain chometz should not be used.

MEDICINE containing kitniyos is permitted for someone who feels ill.

PRODUCTS that are only permitted for medical reasons should be used in separate utensils.

The following is a list of some common over the counter products that are chometz-free but may contain kitniyos. Furthermore, the list does not verify the general kashrus of the medications. Items must be in exact format as shown and exactly as named.

Boost Kid Essentials, 1.0, 1.5

Boost Kid Essentials with Fiber

Pediasure – All shakes, all liquids, all powders, all flavors, *Excluding* bars

*Most of these products contain kitniyos, and for some that is the primary ingredient. With the exception of the flavors used, any item which might be chometz-based is used in such small proportions that it is batel b'shishim (nullified). Where possible, it is preferred to (a) use a substitute which is certified for Pesach, and (b) use a liquid supplement instead of a powdered one.

The list above is based on information from the OU, CRC and the Star K.
